My name is Keijo (Chen Yong Hu) and I am a eight-year old happy funny boy. When I was a little kid, I used to sit on top of my grandpa's piano and watching his playing. I got fascinated with this instrument and started my own piano playing when I was five years old. Piano practicing has been full of challenges but every step in my progress has given me a great sense of accomplishment. Music makes me happy and is an indispensable part of my life! In addition to piano, I love sports, singing, dancing, paintng and playing drama.
