

### Biography Description:

My name is Rik Mutian Sun, and I'm a 9-year-old boy living in Stockholm, Sweden. I began my piano journey at the age of five, and ever since, music has become a part of my everyday life. I love every beat and rhythm-whether it's the sound of raindrops or birds singing, I find music everywhere around me. Besides playing the piano, I also enjoy climbing, skiing, and playing chess.
