

We are Elsa (14 years), Love (14 years) and Filip (13 years), classmates and friends from the music school Lilla Akademien in Stockholm, Sweden. We have played piano since we were very young and have found a lot of joy in music over the years.

Playing in an ensemble has taught us a lot. It can be challenging to play in a group. We have developed our skills to listen to each other and to work together. We have the same teacher, Victoria Power, whose guidance makes it easier for us to work together and to grow together as musicians.

Outside of school and piano, we each have our own hobbies. Elsa sings in a choir and dances ballet. Love plays football and Filip likes outdoor activities, especially camp sports.
